

# ROYAL JUBILEE HOSPITAL PATIENT CARE CENTRE PUBLIC LECTURE

- *How have recent hospital designs influenced the lay-out and physical set-up of the Royal Jubilee Hospital's new Patient Care Centre (PCC)?*
- *How will this brand new care centre in Victoria contribute to better and safer care for patients and a better work environment for staff and physicians?*
- *How have learnings from other hospital construction projects in Europe and North America been incorporated in the Royal Jubilee PCC?*

The Vancouver Island Health Authority is holding a free public lecture with speakers from the Center for Health Design who will discuss how well-designed health care facilities contribute to better patient care. The speakers are:

**Roger Ulrich, Ph. D.** Professor, Architecture, Texas A&M University and Faculty Fellow, Center for Health Systems & Design

**Amy Keller, M. Arch.**, Research Associate, Center for Health Design
