Effects and Hazards of Second Hand Smoke Points out that inhaling Second Hand Smoke (SHS) puts people at risk for developing a number of serious conditions and diseases.

Effects and Hazards of Smoking Helps viewers understand the initial and long-term effects of nicotine and cigarette smoke on the human body. Includes dangers of second hand smoke.

Tobacco Tricks Shows the tricks that tobacco companies use to attract smokers, addict them and keep them hooked. Explains why nicotine keeps smokers hooked even though tobacco causes so many health problems and how “light” cigarettes are just as deadly as regular cigarettes. Covers how tobacco companies use the media to keep people smoking and how they attract new smokers, especially young people.
