

***"Entering the Mouth of the Dragon": Challenging Best Practice Guidelines of Breastfeeding Practice..***

The research exposes a number of issues around current infant feeding guidelines and how they impact women with mood disorders in the peri-natal period.

Research Capacity Building

Michael Smith Foundation for  
Health Research

Research Rounds is an initiative of the VIHA Capacity Building Office, whose goal is to build research capacity with VIHA health professionals and decision makers, as well as building collaborative links with community, academic partners, other health authorities, and the Ministry of Health.

For more information please see the Capacity Building webpage:  
[http://www.viha.ca/rnd/capacity\\_building.htm](http://www.viha.ca/rnd/capacity_building.htm)

**Presented by: Joan Humphries, MN**  
Nurse Educator; Camosun College

Joan has a clinical background in Maternal/Child care in rural and urban settings throughout British Columbia that spans over three decades. The research described in this article was done in fulfillment of her MN credential (2009), and has resulted in a nomination for the Governor General's Silver Medal from the University of Victoria.
