

Points to Consider:

- ◆ The services and environments at each setting differ. Some may be more suited to your needs and can be highlighted by your case manager in order for you to select the most appropriate location.
- ◆ Application for Assisted Living does not guarantee occupancy. Vacancies in specific settings vary. Predicting an occupancy date is often not possible.

Your Case Manager or Hospital Case Manager determines eligibility. Monthly charges are based on Revenue Canada information, and do not vary by setting.

When you contact the setting to arrange a tour, please:

- ◆ Notify the operator that you have been referred by the Vancouver Island Health Authority.
- ◆ Remember that the building is the private residence of a number of people. Opportunities to tour may be limited in order to respect the needs and privacy of the current occupants.

ASSISTED LIVING RESIDENCES

March 2009

The residences listed in this brochure operate designated assisted living units in partnership with the Vancouver Island Health Authority.

Eligible applicants are encouraged to tour and select their preferred site(s).

An offer for tenancy into a VIHA designated assisted living unit is only possible when confirmed by the Home and Community Care Program.
