

Working With The Community

The Vancouver Island Health Authority (VIHA) and neighbouring community organizations re-established the Royal Jubilee Hospital Neighbourhood Committee in 2007. The Committee is a link between VIHA and Royal Jubilee area neighbourhood associations to discuss matters of common interest and concern.

Committee members include:

- North Jubilee Neighbourhood Assoc.
- South Jubilee Neighbourhood Assoc.
- Camosun Community Assoc.
- Friends of Bowker Creek Society
- District of Saanich
- City of Victoria
- Vancouver Island Health Authority

In the past year, the Committee's focus has been on the new Royal Jubilee Hospital Patient Care Centre. The Committee developed Design Requirements for the new building and completed a Good Neighbour Agreement. As part of this, VIHA committed to being available to Royal Jubilee Hospital neighbours on a 24/7 basis. (*Master Development Agreement between VIHA and the City of Victoria states (section 15.1(c), p. 13).*)

How to
Reach Us

Royal Jubilee Hospital

The Royal Jubilee Hospital has been at its current location since the late 1800s. It provides high-level specialized care for residents from throughout Vancouver Island, as well as regular hospital services for residents of Victoria, Saanich, Oak Bay and other local municipalities.

The construction of the new Patient Care Centre at Royal Jubilee hospital is exciting news for Victoria area residents. This new hospital building, which was urgently needed, will provide state-of-the-art care for patients for generations to come.

At the same time, we recognize living next to a large hospital undergoing significant development can have an impact on our neighbours - noise, traffic, construction activity, parking, landscaping, green space and environmental considerations.

How to Reach Us

We want you to be able to reach us if you have a question, comment or concern about anything relating to the Royal Jubilee campus, or the new development. Here is how:
