

Upcoming Funding Opportunities					 Michael Smith Foundation for Health Research	
Funding Agency	Description	Length of funding (years)	Total Funding	Registration/Letter of Intent due	Full Application due	Web site
Alcoholic Beverage Medical Research Foundation (ABMRF)	ABMRF is a nonprofit independent research organization that provides support for scientific studies on the use and prevention of misuse of alcoholic beverages. The foundation provides funds for interdisciplinary research in the biological, medical, epidemiological, behavioral, and social sciences in this field. Through its research grant program, the foundation supports innovative studies conducted by qualified researchers at academic and scientific institutions in Canada and the United States.	2	\$ 100,000	Not specified	1-Feb and 1-Sept on annual basis	Web Link
AllerGen: In-Year Research Funding Programme	Available funding will support strategically important commercialization and knowledge translation initiatives, especially those resulting from AllerGen-supported research in the Network's initial round of funding (2005-07); programmatic or network-level research partnership development; and capacity-building initiatives. Seed funding for strategically important research initiatives is also available.	1	\$ 50,000	Not required	Ongoing	Web Link
Alva Foundation: Grant in Neonatal and Newborn Health new March '10	The Alva Foundation funds organizations conducting research and/or developing services that address significant risk factors in early childhood development, prenatal through four years of age. It is our philosophy that healthy childhood development sets in place many mental, physical, and social attributes that determine the ability to develop into a healthy adult. We are interested in helping organizations that work in the areas of prevention.	5	\$ 250,000	1-Apr-10	late May 2010	Web Link
American Asthma Foundation: Early Excellence Award	Qualified Investigators will have already established an independent research program. They will usually hold a full-time academic appointment as an Assistant Professor, early Associate Professor, or the equivalent, and will have national-level, independent funding. The proposed work should be directed towards uncovering basic mechanisms in the pathogenesis of asthma.	3	\$ 450,000	Not required	1-Feb-11	Web Link
American Asthma Foundation: Senior Investigator Award	Senior Investigators will have well-established research programs and an international reputation for their research. They will usually hold a full-time academic appointment as Professor, Associate Professor, or the equivalent. The proposed work should be directed towards uncovering basic mechanisms in the pathogenesis of asthma.	3	\$ 750,000	Not required	1-Feb-11	Web Link
American Foundation for Suicide Prevention (AFSP): Six types of Research Grants	AFSP research grants support studies that aim to increase understanding of the causes of suicide and factors related to suicide risk, or to test treatments and other interventions designed to prevent suicide. Investigators from all academic disciplines are eligible to apply, and both basic science and applied research projects will be considered, providing the study has an essential focus on suicide or suicide prevention.	2	\$ 100,000	Not specified	1-Dec and 1-June on annual basis	Web Link

ANESTHESIA PATIENT SAFETY FOUNDATION (APSF) 2011 GRANT PROGRAM new March '10	The Anesthesia Patient Safety Foundation (APSF) Grant Program supports research directed towards enhancing anesthesia patient safety. Its major objective is to stimulate studies leading to prevention of mortality and morbidity resulting from anesthesia mishaps.	2	\$ 150,000	Not specified	1-Jun-10	Web Link	
Arthritis Health Professions Association: Research Grant Announcement	Seed money to assist arthritis health professionals (members of AHPA) to improve their ability to compete for funds from voluntary and government funding agencies. This category of funding is intended to support the development of a research protocol.	1	\$ 5,000	Not specified	June 13th on an annual basis	Web Link	
Association for International Cancer Research (AICR):	AICR awards grants to support fundamental or translational research into the causes, mechanisms, diagnosis, treatment and prevention of cancer. We do not support clinical research. We will consider applications that include some clinical research in a project which is mostly basic or translational. We accept applications from non-profit research institutions anywhere in the world.	3	Not specified	Not required	30-Apr-10	Web Link	
Banting Research Foundation	The Banting Research Foundation will support the work of young Canadian Scientists to initiate their research program with an annual grant of up to \$20,000	1	\$ 20,000	Not specified	March 15th of any year	Web Link	
BCEOHRN : Networking Facilitation Fund Grants	This fund is to assist BCEOHRN members to network in a variety of ways, including, but not limited to bringing together BCEOHRN members for the preparation of research grant applications to national or international granting agencies, relevant to environmental and occupational health research themes.	One time	\$ 2,500	Not required	ongoing	Web Link	
BC Clean Air Research (BC CLEAR) Fund	All basic and applied research projects related to air quality management issues within British Columbia are eligible for support from the BC CLEAR Fund. Specifically, the Fund supports research relevant to BC that helps further understanding of the nature of air quality, the physical processes involved (atmospheric, emissions, transformations), their effects on the environment and humans, and how they are effectively managed.	Not specified	\$ 25,000	Anytime	Upon Invitation	Web Link	
BC Mental Health and Addictions Research Network-Development Funds	The mission of the BC Mental Health and Addictions Research Network is to contribute to the excellence of mental health and addictions research in British Columbia by strengthening relationships among researchers across disciplines and across academic and health services organizations. Priority will be given to projects that demonstrate collaboration and networking across disciplines, across sites/organizations, and/or across regions of the province.	Not specified	\$ 3,500	Not required	ongoing	Web Link	
BC Rural & Remote Health Research Network: 2009 RESEARCH BUILDING WORKING GROUP INITIATIVE	The purpose of the BCRHRN 2009 Working Group initiative is to support activities (e.g., writing research proposals, grants, developing a research agenda, analysing research results, etc) aimed at producing excellent rural health research.	Not specified	\$ 2,000	Not required	ongoing	Web Link	
Canadian Association of Gastroenterology (CAG): Community Research Grant (CREG) new March '10	The Canadian Association of Gastroenterology (CAG) and Canadian Digestive Health Foundation (CDHF) are pleased to present an award specifically designed to assist community-based gastroenterologists, who are members of the CAG, take advantage of an operating research funding grant in digestive sciences.	1	\$ 40,000	Not specified	15-Dec on annual basis	Web Link	

Canadian Association of Gastroenterology (CAG) Workshops	The intent of this program is to provide a grant of up to \$5,000, which is to be used to promote the attendance of CAG trainees (basic and/or clinical) at national or international conferences. The award can be used to offset costs incurred in attending the conference such as registration, travel, accommodation and meals. Payment of honorarium is not permitted. Eligible CAG trainees are those whose abstract has been accepted for presentation.	Not specified	\$ 5,000	Not required	March 1st and September 1st annually	Web Link	
Canadian Breast Cancer Foundation: Small Initiative Fund	This program provides funding for small scale community initiatives in breast cancer and breast health education and awareness.	1	\$ 5,000	Not required	Ongoing	Web Link	
Canadian Breast Cancer Research Alliance: DEVELOPMENTAL AND EXPLORATORY (DEX) GRANTS	DEX research grants support innovative exploratory projects or pilot studies in the areas of behavioural, health services, legal/ethical/social/policy and psychosocial research that has the potential to improve breast cancer control or quality of life. Applications are invited from all sectors of the breast cancer care or research continuum, from community-based groups to established researchers.	1	\$10,000-\$50,000	Not specified	April 1 and Nov. 1 on annual basis	Web Link	
Canadian Breast Cancer Research Alliance: Idea Grants	CBCRA's IDEA grants support innovative, new research ideas that are speculative, but have the potential for advancing scientific knowledge. They support small-scale pilot studies or investigations of concepts to permit the investigator to test out new ideas, which, although based on good science, are outside of existing conventional research paradigms and could be deemed speculative.	1	\$ 100,000	Not specified	April 1 and Nov. 1 on annual basis	Web Link	
Canadian Breast Cancer Research Alliance: KT-linkage Grants	The KT-linkage Grants focus on the developmental phase of a research project. They are intended to facilitate linkage with relevant stakeholders(s) in order to define the research questions and methodology in such a way that is most relevant to the potential users of the research results. Some examples of linkage activities are meetings, workshops, electronic communications, focus groups, or participatory research projects.	1	\$10,000-\$20,000	Not specified	April 1 and Nov. 1 on annual basis	Web Link	
Canadian Breast Cancer Research Alliance: KT-supplement Grants	KT-supplement grants focus on the end of the research project when it is appropriate to disseminate the results of the research to the potential users beyond the traditional scientific community and using methods supplementary and in addition to publication in standard scientific journals.	1	\$10,000-\$20,000	Not specified	April 1 and Nov. 1 on annual basis	Web Link	
Canadian Cancer Society Research Institute: Research Grants	Grants for research will be awarded to projects deemed worthy of support, provided that the basic equipment and research facilities are available in the institution concerned and that it will provide the necessary administrative services. Such awards will be granted for the purchase and maintenance of animals, expendable supplies, minor items of equipment, payment of graduate students, postdoctoral fellows and technical and professional assistants, open access publication costs, research travel and permanent equipment.	5	\$750,000 to \$1.5 million	Not specified	Oct. 15 on annual basis	Web Link	

Canadian Child Health Clinician Scientist Program (CCHCSP)	The award will provide support for highly qualified child health clinician candidates to develop their requisite knowledge and skills for a career as an independent scientist in child health research. Trainees will engage in research training and a core curriculum in one of the participating Child Health Research Training Centres of the Canadian Child Health Clinician Scientist Program.	4	\$ 200,000	Not specified	April 1 and Nov. 1 on annual basis	Web Link	
Canadian Cystic Fibrosis Foundation- Conference Grants	Grants to support small conferences that focus on subjects of direct relevance to cystic fibrosis. These grants typically supplement other funding sources.	Not specified	Not specified	Not required	Application by letter at any time	Web Link	
Canadian Cystic Fibrosis Foundation (CCFF): Clinical Project grants	Clinical Project grants provide a mechanism whereby the most important ideas for clinical studies can be forged into viable protocols, and strategies of urgent clinical relevance can be pursued.	Not specified	Not specified	Not required	Application by letter at any time	Web Link	
Canadian Cystic Fibrosis Foundation (CCFF): Senior Scientist Research Training Awards	Senior Scientist Research Training awards provide support to a limited number of established CF investigators by offering them an opportunity to obtain additional training that will enhance their capacity to conduct research directly relevant to CF. This award can be used for sabbatical support for qualified individuals.	1	\$ 30,000	Not required	1-Apr-10	Web Link	
Canadian Dermatology Foundation: Research Grants	The research must be of good quality and directly related to dermatology. Both basic research and clinical epidemiological research are encouraged.	1	\$ 20,000	Not specified	One grant per year - no date specified	Web Link	
Canadian Diabetes Foundation: Diabetes Educator of the Year	The Diabetes Educator of the Year award recognizes individuals who have made special contributions to diabetes education through dedication, sensitivity and innovation in the daily practice of patient education and care.	One-time	\$ 1,000	Not required	1-Apr-10	Web Link	
Canadian Diabetes Foundation: Practical Diabetes Resource Award	The CDA/DES Diabetes Resource Award recognizes individuals who have developed a culturally sensitive educational tool for use in their practice.	One-time	\$ 750	Not required	1-Apr-10	Web Link	
Canadian Foundation for Women's Health: The Duchesnay International Elective Fellowships for Obstetrics and Gynaecology Residents	The Canadian Foundation for Women's Health attributes two Duchesnay fellowships every year to resident students in obstetrics and gynaecology who desire to complete an elective in a health care center of a developing country.	4-8 wks	\$2500-\$4500	Not required	May 1 annually	Web Link	
Canadian Institutes of Health Research: Catalyst Grant: Pilot Projects in Aging (2010) new March '10	Pilot Projects in Aging is being offered to encourage and stimulate new and established investigators to undertake new, high priority research challenges in the field of aging. It is expected that this targeted investment will enable researchers to generate preliminary data, validate methodology or tools, and/or explore novel research ideas towards enhancing the success of subsequent applications to the CIHR.	1	\$ 50,000	31-Aug-10	30-Sep-10	Web Link	

Canadian Institutes of Health Research: Knowledge Synthesis Grant: Spring 2010 Priority Announcement (Specific Research Areas) new March '10	Priority Announcements on CIHR Knowledge Synthesis competitions offer additional sources of funding for highly rated applications that are relevant to specific CIHR research priority areas or mandates. The purpose of this funding opportunity is to support teams of researchers and knowledge users to produce knowledge syntheses and scoping reviews that will contribute to the use of synthesized evidence in decision-making and practice.	1	\$ 100,000	Not specified	3-May-10	Web Link	
Canadian Institutes of Health Research: Master's Award HIV/AIDS (Community-Based Research) (2009-2010)	The CIHR HIV/AIDS Community-Based Research (CBR) Program assists community-based organizations, non-governmental organizations and institutions in developing the knowledge necessary to carry out their HIV/AIDS work in the most effective manner, and in creating expertise within these communities to conduct their own research.	2	\$ 17,500	Not required	1-Apr-10	Web Link	
Canadian Institutes of Health Research: Other: Health Research Communications Award (2009-2010)	The purpose of this funding opportunity is to build capacity in health journalism and communications across all sectors of health research, including biomedical, clinical, health services and policy, and population and public health.	2	\$ 52,000	Not specified	1-Apr-10	Web Link	
Canadian Institutes of Health Research: Operating Grant: Demonstration Projects in Mobility in Aging (2009-2010)	The purpose of the "Demonstration Projects in Mobility in Aging" funding opportunity is to enhance the capacity of knowledge users to apply research evidence to their decisions on approaches1 - products, programs, services, and health system models - that contribute to improved Mobility in Aging.	3	\$ 600,000	1-Mar-10	1-Apr-10	Web Link	
Canadian Institutes of Health Research; Operating Grant: Disease Management	The goal is to support researchers and healthcare professionals with the development and implementation of disease management programs and to contribute to reducing the burden of chronic disease in Canada. We would like to encourage innovative approaches that focus on improving patient care, interlinking of available healthcare providers and resources, and other innovative solutions that aim to improve chronic disease management.	1	\$ 200,000	17-Sep-10	16-Nov-10	Web Link	
Canadian Institutes of Health Research: Operating Grant: Population Health Intervention Research new March '10	The purpose of this funding opportunity is to support the prompt initiation of intervention research on rapidly unfolding programs, policies and resource distribution approaches that have the potential to impact health and health equity at the population level. This funding opportunity strongly encourages close collaboration between program implementers (e.g. decision-makers and researchers).	2	\$ 200,000	14-Jun-10	13-Sep-10	Web Link	
Canadian Institutes of Health Research: Advancing the Science to Reduce Tobacco Abuse and Nicotine Addiction Initiative - Researcher Travel Grants	Researchers and research end-users benefit greatly from opportunities to learn about current research and to work together. For this reason, the CTCRI's Workshop and Learning Opportunity Grants support workshops, meetings and events which focus on building research capacity by bringing together individuals from different disciplines and sectors. Strong preference will be given to projects focusing on regions or populations in which there has been a historic lack of capacity for research.	N/A	\$ 15,000	Not required	90 days prior to meeting	Web Link	

Canadian Institutes of Health Research: Small Health Organization Partnership Program new March '10	CFWH has partnered with the Canadian Institutes of Health Research to jointly-fund one award in health research and training relevant to women's reproductive health to foster partnership opportunities with small health charities and not-for-profit organizations with modest health research funding capacity by co-funding training and salary awards.	Not specified	Not specified	Feb 20th on annual basis	Upon invitation	Web Link	
Canadian Lung Association: Knowledge Translation Award new March '10	The Knowledge Translation award program is a new initiative of the CLA designed to facilitate the dissemination of knowledge related to respiratory health. Applications eligible for this award may include applied or clinical research using quantitative or qualitative methodologies, development of KT tools, systematic reviews, website development, etc.	1	\$ 3,000	Not required	May 14, 2010 and Oct. 15, 2010	Web Link	
Canadian National Institute for the Blind (CNIB): Baker Applied Research Fund	The E.A. Baker Applied Research Fund supports research that is focused on the social, educational, cultural, and rehabilitative needs of Canadians living with vision loss, and the application of assistive devices to meet these needs. This program is intended both to advance the career development of new investigators, and to encourage senior researchers to develop programs of applied research.	1	\$ 40,000	Not specified	Dec. 1 of each year	Web Link	
Canadian National Institute for the Blind (CNIB): Baker New Researcher Fund	CNIB's Grants and Fellowships Program provides one-year grants to encourage new investigations that may lead to the prevention of vision loss. It is intended to benefit new investigators (within 5 years after Ph.D or M.D.) by giving them experience and results which can assist them in further grant applications and pilot investigations. This fund can also be used to assist experienced researchers who are considering a major or new direction in their work.	1	\$ 40,000	Not specified	Dec 1 of each year	Web Link	
Canadian National Institute for the Blind (CNIB):CGCRC Award - Clinical Glaucoma Research Opportunity	CNIB and the Canadian Glaucoma Clinical Research Council (CGCRC) are pleased to announce a new partnership for funding of clinical glaucoma research in Canada.	3	\$ 225,000	Not specified	Oct 31 and May 15 of each year	Web Link	
Canadian National Institute for the Blind (CNIB): Hochhausen Research Award	The award was established by Ben and Mary Hochhausen to further their long-time volunteer and financial contribution to CNIB. This international award encourages research in the field of access technology for people living with vision loss.	1	\$ 10,000	Not specified	30-Sept of each year	Web Link	
Canadian National Institute for the Blind (CNIB): Tuck MacPhee Award	CNIB's Grants and Fellowships Program provides this award to support researchers in the field of macular degeneration. This competition is open to all researchers; however applicants must be residents of Canada and research must be conducted primarily in Canada.	1	\$ 50,000	Not specified	1-Dec of each year	Web Link	
Canadian National Institute for the Blind (CNIB): Ross Purse Doctoral Fellowship	The Ross C. Purse Doctoral Fellowship encourages and supports theoretical and practical research and studies at the postgraduate or doctoral level, in the field of vision loss in Canada. The fellowship is awarded for research in the social sciences, engineering, or other fields of study that are immediately relevant to the field of vision loss.	2	\$ 12,500	Not required	2-April on annual basis	Web Link	
Canadian Occupational Therapy Foundation: GENERAL SCHOLARSHIPS new March '10	Various scholarships are awarded annually to individuals, life or student members of CAOT enrolled full-time in a master's or doctoral level program who have demonstrated an outstanding contribution to occupational therapy.	1	\$ 2,000	Not required	30-Sept of each year	Web Link	

Canadian Occupational Therapy Foundation: RESEARCH GRANTS new March '10	Awarded annually to individual, life or student members of CAOT who have been sponsored by an employer or educational institution to pursue research directly applicable to the practice of client-centered occupational therapy.	1	\$ 5,000	Not required	Various times on an annual basis - check website	Web Link	
Canadian Pain Society- Small Grants for Local and Regional Initiatives in Pain Education and Organizational Development	The Society offers small grants in support of projects designed to improve pain management or to promote education about pain.	Not specified	\$ 1,250	Not required	anytime - funds allocated quarterly	Web Link	
Canadian Patient Safety Institute: Patient/Client Safety in Home Care in Canada new March '10	While there is increasing evidence about patient safety issues and potential solutions in hospital or acute care settings, there is a need for more evidence on the nature of patient safety issues in all healthcare sectors and settings to guide effective approaches to improving patient safety and the quality of healthcare services in Canada.	2	\$1.2 million	Not required	8-Apr-10	Web Link	
Canadian Respiratory Health: Knowledge Translation Award	The Knowledge Translation award program is a new initiative of the CLA designed to facilitate the dissemination of knowledge related to respiratory health. Applications eligible for this award may include applied or clinical research using quantitative or qualitative methodologies, development of KT tools, systematic reviews, website development, etc.	One time	\$ 3,000	Not required	14-May-10 and 15-Oct-10	Web Link	
Christopher and Dana Reeve Foundation: Quality of Life Grants	Quality of Life grants are awarded to programs or projects that improve the daily lives of people with paralysis. These grants are awarded to nonprofit organizations that address that needs of people living with paralysis caused by spinal cord and other injuries, diseases and birth conditions, including (but not limited to) stroke, spina bifida, multiple sclerosis, cerebral palsy and amyotrophic lateral sclerosis (ALS).	1	\$ 25,000	Not specified	1-Mar and 1-Sept on annual basis	Web Link	
Citizenship and Immigration Canada: The Multiculturalism Program Grants and Contributions	To improve the ability of public institutions to respond to ethnic, racial, cultural, and religious diversity by assisting in the identification and removal of barriers to equitable access and by supporting the involvement of these ethno-racial/cultural communities in the public decision-making process.	Not specified	Not specified	Not required	Continuous	Web Link	
Commission for Case Manager Certification: Research Grant	CCMC believes that because the practice and the job settings of case managers have evolved rapidly over the past two decades, research is needed in order to accurately identify the current state of the field and to document how case management has evolved in response to the changing environment of healthcare.	1	\$ 10,000	Not specified	May 1 on annual basis	Web Link	
Crohn's and Colitis Foundation of Canada Conference Sponsorship	The CCFC IBD Research Institute will consider applications for financial support of a limited number of requests to hold scientific meetings relevant to inflammatory bowel disease.	N/A	\$ 5,000	Not required	Ongoing	Web Link	
Crohn's and Colitis Foundation of Canada: Innovations in IBD Research": A Special Competition	The Crohn's and Colitis Foundation of Canada invites applications for an Innovative Research Grant, to fund novel or innovative approaches to IBD research. This grant is intended to stimulate and support research which may not be encompassed within the boundaries of traditional medical research.	1	\$ 50,000	Not required	March 1st and September 1st annually	Web Link	

CYSTIC Fibrosis Foundation: CFF/NIH-Unfunded Award	In an effort to assure that all meritorious CF-related research is supported, CFF has developed the CFF/NIH-unfunded Award mechanism to provide funding. The objective of this award is to support excellent CF-related research projects that have been submitted to and approved by the National Institutes of Health (NIH), but cannot be supported by available NIH funds.	2	\$ 125,000	Not required	Ongoing basis	Web Link	
Cystic Fibrosis Foundation: Pilot and Feasibility Awards	These grants are for developing and testing new hypotheses and/or new methods, and to support promising new investigators as they establish themselves in research areas relevant to CF. Proposed work must be hypothesis driven and must reflect innovative approaches to critical questions in CF research.	2	\$ 80,000	1-May-10	6-Oct-10	Web Link	
Cystic Fibrosis Foundation: Summer Scholarships in Epidemiology	Awards are available to increase skills in epidemiology for M.D.s currently working in cystic fibrosis. Scholarships cover tuition and expenses up to \$2,000 for selected summer epidemiology programs. Course work should include biostatistics and epidemiology, particularly clinical epidemiology and/or clinical trials.	summer	\$ 2,000	Not required	April 1st on annual basis	Web Link	
Dystonia Medical Research Foundation: Research Grants	Research Grants support hypothesis-driven research at the genetic, molecular, cellular, systems or behavioral levels that may, directly or indirectly, lead to a better understanding of the pathophysiology of dystonia or to new therapies for dystonia.	2	\$ 130,000	Not required	15-Dec on annual basis	Web Link	
Dystonia Medical Research Foundation: Fellowships	Fellowships are designed to assist post-doctoral fellows establish careers in research relevant to dystonia.	2	\$ 100,000	Not required	15-Dec on annual basis	Web Link	
Elizabeth Glaser Pediatric Aids Foundation: Grants and Awards	These grants provide scientists and scholars with the opportunity and resources to focus on issues critical to pediatric AIDS and to accelerate basic research that is vital in the struggle to end this devastating pandemic.	2 to 5 years, depending on award	\$30,000 to \$682,500 depending on grant/award	Required but no specified date	Not specified	Web Link	
Food Allergy & Anaphylaxis Network: Research Grant new March '10	FAAN awards grants to support high quality research in the epidemiology, etiology, treatment and prevention of food allergy and anaphylaxis. Although proposals involving basic or clinical research are accepted, applications that will lead to an immediate im	2	\$ 300,000	16-May-10	27-Aug-10	Web Link	
Foreign Affairs and International Trade Canada: Going Global Science and Technology Fund	The Going Global S&T Program supports activities ("projects") that aim to build on targeted relationships between Canadian researchers and key players in other countries and allow them to proceed with the formal discussions required to initiate collaboration on future international research and development initiatives.	Not specified	minimum \$8000 maximum \$75,000	Not specified	8 weeks in advance of project commencement	Web Link	
Foundation for the Future: Future of Humanity Grants	The Foundation For the Future conducts and funds a Research Grants Program to provide financial support to scholars undertaking research at a macro level that is directly related to better understanding the factors affecting the long-term future of humanity.	Not specified	\$5000 - \$25,000	between Jan.1 and April 30 on annual basis	Upon Invitation	Web Link	

Fragile X Research Foundation: Medical Research Grants for Studies Aimed at Treatment of Fragile X Syndrome	The Fragile X Research Foundation of Canada (FXRFC) offers a grant program designed to encourage research aimed at finding a specific treatment for Fragile X syndrome. FXRFC is particularly interested in pre-clinical studies of potential pharmaceutical and genetic treatments and studies aimed at understanding the function of the FMR1 gene.	2	\$ 30,000	Not specified	1-Oct on annual basis	Web Link	
Fragile X Research Foundation: (FRAXA):Medical Research Grants And Postdoctoral Fellowships	The purpose of this grant program is to promote research aimed at finding a specific treatment for fragile X syndrome. FRAXA's goal is to bring practical treatment into current medical practice as quickly as possible; therefore, preference will be given to research projects that have a clear practical application and the results of which will be shared with other qualified researchers in a timely fashion.	1	\$30-60,000	Letter of inquiry to be submitted any time	1-Feb on annual basis	Web Link	
Fraser Basin Council: BC Clean Air Research (BC CLEAR) Fund	The BC Clean Air Research (BC CLEAR) Fund promotes excellent research by funding transformative, internationally significant research of strategic importance for the management of air quality in British Columbia.	1	\$ 25,000	Not required	applications will be received and evaluated throughout the year, subject to available funding	Web Link	
Gay and Lesbian Medical Association (GLMA): Lesbian Health Fund	LHF's mission is to improve the health of lesbians and their families through investigation and research. Research goals include: Determination of rates and risk factors for cancers and other diseases among lesbians, Issues of access to medical care for lesbians, and Study of mental health concerns of lesbians and their families.	Not specified	\$500 to \$10,000	Not specified	1-May and 1-Oct annually	Web Link	
Hamber Foundation	The Foundation makes grants for cultural, educational and charitable purposes within the Province of British Columbia. The list of projects is as wide-ranging as the interests and needs of the people throughout the cities, towns and communities of British Columbia.	Not specified	Not specified	Not required	15-March and 15-Sept on annual basis	Web Link	
Health Effects Institute: Request for Preliminary Applications 09-5. Health Effects of Air Pollution	RFPA 09-5 provides a mechanism for investigators whose area of interest falls outside of the current RFAs but is compatible with the HEI research program and mission. Applications can be submitted at any time. HEI is interested in receiving applications for research on novel and important aspects of the health effects of air pollutants, particularly those derived from motor vehicle emissions.	1	\$ 10,000	18-May-10	Upon Invitation	Web Link	
Heart and Stroke Foundation of Canada: Research Fellowship	The objective is to attract and foster young investigators to initiate and/or continue training in the scientific method and chosen area of the cardiovascular or cerebrovascular fields.	3	Not specified	Not required	annual basis Nov. 1st	Web Link	
Heart and Stroke Foundation of Canada: The Visiting Scientist	This program is intended for Canadians to work abroad or at another Canadian institution or for foreign visitors to work at a Canadian institution	3mo to 1yr	\$ 12,000	Not required	annual basis Dec. 15th	Web Link	
Heart and Stroke Foundation of Canada: Grants-In-Aid	The Grant-in-Aid (GIA) program supports experimental cardiovascular or cerebrovascular research projects and offers grants for up to one, two, or three years.	1 to 3	Not specified	Not specified	annual basis Sept. 1st	Web Link	

Hereditary Disease Foundation Huntington's Disease	The focus of the Hereditary Disease Foundation is on Huntington's disease. Support will be for research projects that will contribute to identifying and understanding the basic defect in Huntington's disease. Areas of interest include trinucleotide expansions, animal models, gene therapy, neurobiology and development of the basal ganglia, cell survival and death, and intercellular signaling in striatal neurons.	1	\$ 50,000	Submit to get application	annual basis Feb. 15, June 15, and Oct. 15	Web Link	
Huntington Society of Canada: NAVIGATOR Research Program	The goal of the NAVIGATOR Research Program is to provide funding for scientific research of direct and immediate relevance to Huntington Disease in Canada; to provide a platform for the future recruitment of outstanding investigators to HD research; to facilitate research collaboration nationally and internationally, and research which is relevant to other neurodegenerative disorders.	2	\$ 150,000	Not required	7-May-10	Web Link	
Huntington Society of Canada: New Pathways for HD Research	The Huntington Society of Canada (HSC) is interested in fostering innovative lines of enquiry that will eventually lead to the next generation of targets for the treatment of Huntington disease (HD). The Society is now calling internationally for research proposals.	1	\$ 150,000	Not specified	7-May-10	Web Link	
International Anesthesia Research Society: Clinical Scholar Research Awards	Created to further the understanding of clinical practice in anesthesiology and related sciences through clinical investigations. Research must involve human subjects, in vivo or in vitro.	2	\$ 80,000	Not specified	15-Nov-10	Web Link	
International Anesthesia Research Society: Frontiers in Anesthesia Research Award	This biennial award was created "...to foster innovation and creativity by an individual researcher in the field of Anesthesiology." The selection criteria include a high level of originality and scientific excellence. The proposed area of investigation must have direct relevance to new and future directions of the specialty of Anesthesiology. The successful candidate will demonstrate the potential for leadership in the field.	Not specified	\$ 500,000	Not specified	application available September 2010	Web Link	
International Association for the Study of Pain (IASP): IASP International Trainee Fellowship funded by Scan Design by the Inger and Bruun Foundation	The Scan Design by Inger and Jens Bruun Foundation International Trainee Fellowship was established in 2006 to support training in all aspects of pain research. There are no restrictions as to the trainee's age, nationality, or degree(s). The trainee will generally be in an early stage of his or her career. The trainee must be a member of IASP or must apply for membership upon award of the grant.	1	\$ 50,000	Not specified	1-Jul-10	Web Link	
International Association for the Study of Pain (IASP): John J. Bonica Trainee Fellowship	The John J. Bonica Trainee Fellowship was established in 1998 in memory of the founder of IASP to support training in all aspects of pain research. There are no restrictions as to the trainee's age or degree(s). The trainee will generally be in an early stage of his or her career. The trainee must be a member of IASP or must apply for membership upon award of the fellowship.	1	\$ 50,000	Not specified	1-Jul-10	Web Link	
International Institute for Research in Paraplegia : new March '10	The International Foundation for Research in Paraplegia IRP in Geneva and its sister Foundation IFP in Zurich are two private research foundations with the exclusive aim to promote basic and clinical research related to spinal cord injury. Research projects may address all aspects of CNS and spinal cord lesions, nerve regeneration, trophic support of lesioned neurons, and functional changes induced by lesions, preferentially in mammals.	Not specified	Not specified	Not required	31-Oct-10	Web Link	

International Rett Syndrome Foundation: HeART Award (Help Accelerate Rett Therapeutics) new March '10	HeART awards are provided for early and late stage translational research efforts to treat and reverse RTT, such as; assay development, target identification and validation, screening and testing of candidate therapeutics, exploratory studies to develop biomarkers and objective clinical outcome measures, development and optimization of therapeutic candidates and their testing in pilot clinical trials.	1	\$ 50,000	16-Aug-10	30-Sep-10	Web Link	
International Rett Syndrome Foundation: ANGEL Award (Advanced Neurotherapeutic Grants of Excellence) new March '10	Proposals should be focused on pre-clinical drug discovery and development or clinical testing of therapeutic candidates. This mechanism requires development of a milestone based research plan. Continued funding will be based on progress on milestones.	2	\$ 600,000	Not required	Application accepted on rolling basis year round	Web Link	
International Union Against Cancer: Yamagiwa-Yoshida Memorial international study grants	The objective of this grant is to initiate, set up or pursue bilateral cancer research projects with collaborating investigators abroad; to exchange and exploit complementary skills and material; to receive training in advanced experimental research methods and techniques.	3 months	\$ 10,000	Not required	1-Jul-10	Web Link	
James S. McDonnell Foundation: Collaborative Activity Awards	The Foundation offers Collaborative Activity Awards to initiate interdisciplinary discussions on problems or issues, to help launch interdisciplinary research networks, or to fund communities of researchers/practitioners dedicated to developing new methods, tools, and applications of basic research to applied problems.	Not specified	Varies according to projects scope and needs	Letter of inquiry to be submitted any time	no application deadlines	Web Link	
Juvenile Diabetes Research Foundation International	JDRF is a global funding agency with a substantial proportion of its grants awarded outside the United States. We encourage any and all qualified researchers interested in addressing the scientific and clinical challenges and gaps to cure type 1 diabetes and its complications to apply for funding.	Varies with grant 1 to 5 yrs	Varies according to grant	Not required	Varies with Grant, Jan.- Feb. 2010	Web Link	
The Lalor Foundation: Anna Lalor Burdick Program	The Anna Lalor Burdick Program seeks to educate young women about human reproduction in order to broaden and enhance their options in life.	1	\$10,000 - \$50,000	May 15 or Nov 1 on annual basis	Upon Invitation	Web Link	
LAM Foundation: Research Awards	LAM Foundation research awards include Post Doctoral Fellowships, Established Investigator Awards, and Pilot Project Awards. The LAM Foundation also partners with the American Thoracic Society (ATS) to co-fund LAM-related research projects.	2	\$ 100,000	July 30th on annual basis	Sept. 15th on annual basis	Web Link	
Leukemia and Lymphoma Society: Career Development Program	The awards - Scholar, Scholar in Clinical Research, Special Fellow, Special Fellow in Clinical Research and Fellow - provide stipends to investigators, allowing them to devote themselves to research bearing on leukemia, lymphoma and myeloma. The CDP supports fundamental research in genetics, molecular and cell biology, molecular pharmacology, molecular virology and immunology.	3 to 5 years	\$165,000 to \$550,000	15-Sep-10	1-Oct-10	Web Link	
Leukemia and Lymphoma Society: Focused Workshop Grants	The Leukemia & Lymphoma Society will sponsor focused workshops when they serve to advance the mission of LLS and thus, have a significant impact on the prevention, diagnosis, or management of leukemia, lymphoma or myeloma.	1 workshop	\$ 30,000	Not specified	Not specified	Web Link	

Lotte and John Hecht Memorial Foundation	The Lotte and John Hecht Memorial Foundation today has two major objectives: investigation and support of complementary and alternative medicine, particularly in the treatment of cancer, and economic education that promotes the principles of a free market. The Foundation also supplies support to organizations that help people who fall through the social safety net of government programs for the needy.	Not specified	Not specified	Not required	Anytime - funds allocated quarterly	Web Link	
Lymphoma Research Foundation: 2010 Mantle Cell Lymphoma (MCL) Project Planning Grant new March '10	The Lymphoma Research Foundation's Mantle Cell Lymphoma Consortium is seeking applications for project planning grants geared toward obtaining larger-scale research support from NIH/NCI (or another major funder).	2	\$ 25,000	Not required	15-May-10	Web Link	
Lymphoma Research Foundation: 2010 Mantle Cell Lymphoma (MCL) Correlative Clinical Studies Grant new March '10	The Lymphoma Research Foundation (LRF) Mantle Cell Lymphoma Consortium seeks proposals for correlative clinical studies in mantle cell lymphoma. Applications to this initiative must be an adjunct to a major MCL research project and work in the clinical setting or with primary MCL patient samples.	2	\$ 100,000	Not required	15-Aug-10	Web Link	
Manning Innovation Awards	The Ernest C. Manning Awards Foundation has been recognizing and encouraging innovation in Canada since 1982. By means of a nomination, Canadian resident citizens, who have demonstrated recent innovative talent in developing and successfully marketing a new concept, process or procedure, may be eligible for one of these awards.	N/A	\$100,000 \$25,000 \$10,000	Not specified	1-Dec of each year	Web Link	
March of Dimes: REQUEST FOR PROPOSALS FOR THE PREMATURITY RESEARCH INITIATIVE (PRI) 2011 PROGRAM	Research proposals of new paradigms based on strong conceptual frameworks are invited. The intent is to provide new insights into the large, and increasing, proportion of preterm deliveries in which the cause (and thus the means of prevention) remains elusive.	3	averages up to \$450,000	15-Apr-10	15-Jul-10	Web Link	
March of Dimes: Year 2011 RESEARCH PROGRAM REQUEST FOR PROPOSALS	We invite all qualified scientists with faculty appointments or the equivalent, at universities, hospitals and research institutions, to submit applications for research grants directed at the prevention of birth defects. Research subjects appropriate for support by the March of Dimes include basic biological processes governing development, genetics, clinical studies, studies of reproductive health, environmental toxicology, and social and behavioral studies.*	3	averages up to \$300,000	30-Apr-10	15-Sep-10	Web Link	
March of Dimes Birth Defects Foundation	The March of Dimes Office of Government Affairs uses data and findings from policy research to inform the foundation's advocacy efforts on behalf of pregnant women, infants, and children. Efforts include sponsoring relevant policy research as well as learning from research efforts funded by others. Requests for proposals (RFPs) from policy researchers are in development on an ongoing basis. Projects considered for funding may involve analysis of existing data, conduct of original surveys, preparation of case studies, or development of a scope of work for a large-scale study.	N/A	\$25,000	continuous	continuous	Web Link	
Medical Library Association (MLA): MLA Research, Development, and Demonstration Project Grants	The purpose of this grant is to provide support for research, development, or demonstration projects that will help to promote excellence in the field of health sciences librarianship and information sciences. The applicant should preferably be an individual member of the association.	1	\$1,000	Not specified	1-Dec of each year	Web Link	

Medical Library Association (MLA): HLS/MLA Professional Development Grant	The purpose of the Hospital Libraries Section (HLS)/Medical Library Association (MLA) Professional Development Grant is to encourage participation in professional programs that will aid librarians working in hospitals and other clinical care institutions in developing and acquiring the knowledge and skills delineated in Platform for Change (MLA's Educational Policy Statement) and Using Scientific Evidence to Improve Information Practice (MLA's Research Policy Statement).	Not specified	\$800	Not specified	1-Dec of each year	Web Link	
Michael J. Fox Foundation:Rapid Response Innovation Awards	The Michael J. Fox Foundation for Parkinson's Research (MJFF) announces the launch of the Rapid Response Innovation Awards, a one-of-a-kind rolling application program to support novel Parkinson's disease related research in real-time. The goal of this exciting new program is to rapidly support innovative research focused on the cause of and cure for Parkinson's disease (PD). Postdoctoral fellows and associates are eligible to apply as Principal Investigators.	1	\$75,000	continuous	continuous	Web Link	
Michael Smith Foundation for Health Research:BCNRI Research Project Program	To provide financial support for research projects that address a BCNRI priority area. Research synthesis, research demonstration, pilot/seed research, or research knowledge exchange projects are eligible for support. Applications must have a minimum of one BC researcher and one BC practitioner as project co-leaders. One of the co-leaders should be a nurse or nurse researcher and the team should have strong involvement of nurses.	2	\$200,000	28-Apr-10	Upon Invitation	Web Link	
Michael Smith Foundation for Health Research: BC Nursing Research Initiative (BCNRI)	To provide financial support for one team of researchers and practitioners to plan, develop and implement a program of research in the BCNRI priority area of Care Delivery. The team must consist of a minimum of six members, three BC researchers and three BC practitioners, working together in a clearly demonstrated and meaningful partnership.	4	\$800,000	28-Apr-10	Upon Invitation	Web Link	
Michael Smith Foundation: BC Ethics Harmonization Initiative	As part of the BC Ethics Harmonization Initiative, MSFHR has issued a request for proposal (RFP) to develop a collaborative provincial human subject ethics review process in BC. MSFHR invites one proposal from a team of BC organizations with research ethics boards; collectively these organizations must conduct at least 80 percent of human subject ethics reviews in BC.	Varies	\$250,000/year	Not specified	16-Apr-10	Web Link	
Multiple Myeloma Research Foundation: Validation of Novel Compounds and Novel Combination Awards	The Validation Awards were developed to advance the science of pre-clinical validation in multiple myeloma. With a multitude of therapeutic options under investigation for multiple myeloma, the ability to identify those that show the most potential in treating the disease is of critical importance.	2	\$200,000	Not specified	13-Jul-10	Web Link	
Multiple Sclerosis Society of Canada: Pilot Grants	The purpose of the Pilot Program is to provide limited short-term support of research related to multiple sclerosis in areas where preliminary data are scant or nonexistent. Research proposals submitted to this program should represent unique or novel ideas with the potential to open significant new avenues of research on MS.	1	\$35,000	continuous	continuous, but submissions are reviewed between April and August of every year	Web Link	

Multiple Sclerosis Society of Canada: MULTI-CENTRE, COLLABORATIVE GRANT	The Multiple Sclerosis Scientific Research Foundation (MSSRF) oversees funds to stimulate innovative and collaborative research which will lead to major advances in understanding the pathogenesis of multiple sclerosis (MS) or to new or enhanced therapies for the disease. These funds are separate from the regular research program funded by the Multiple Sclerosis Society of Canada (MSSC) and are meant to support large, multi-centre, collaborative studies that are beyond the scope of the regular research program.	3	\$1.5 million	May 1st on annual basis	Sept. 15th on annual basis	Web Link	
Muscular Dystrophy Association: RESEARCH GRANT and DEVELOPMENT GRANT	MDA supports research aimed at developing treatments for the muscular dystrophies and related diseases of the neuromuscular system. These are the muscular dystrophies (among which are Duchenne and Becker); motor neuron diseases (including ALS and SMA); the peripheral nerve disorders (CMT and Friedreich's ataxia); inflammatory myopathies; disorders of the neuromuscular junction; metabolic diseases of muscle as well as other myopathies.	3	\$180,000	Dec. 15 and June 15 on annual basis	Jan. 15 and July 15 on annual basis	Web Link	
National Brain Tumor Society: Innovation Research Grant	The Innovation Research Grant Program is designed to support highly innovative, transformative or catalytic research projects that will significantly move the field forward. These may include "out-of-the-box" projects. In addition, NBTS may proactively solicit potentially transformative research projects for this program.	2	\$ 300,000	Required - 2010 date to be announced	2010 deadline to be announced	Web Link	
National Brain Tumor Society: Standard & Advanced Research Grant	Standard Grants research will answer critical basic and translational scientific questions. Advanced Grants are intended for basic research that presents a clear pathway to translational research, and translational research with the significant potential to accelerate the discovery of brain tumor therapies	1 to 3	\$100,000 to \$600,000	Required - 2010 date to be announced	2010 deadline to be announced	Web Link	
National Cancer Institute of Canada: Workshop Program	The intent of the Cancer Workshop Program is to facilitate the sharing of knowledge about developments in various fields of cancer research. One of the principal objectives is to bring together, for a common purpose, individuals of diverse backgrounds who would not normally interact and collaborate. The focus on cancer research should be primary rather than secondary, but the objective is to provide a multi-disciplinary approach to a cancer topic which may be biomedical, clinical, epidemiological or sociological in nature.	N/A	\$ 20,000	Not required	May 1 and Nov.1 on annual basis	Web Link	
National Geographic Conservation Trust Grant	The objective of the Conservation Trust is to support conservation activities around the world as they fit within the mission of the National Geographic Society. The trust will fund projects that contribute significantly to the preservation and sustainable use of the Earth's biological, cultural, and historical resources.	Not specified	\$15-20,000	Not specified	Continuous basis	Web Link	
National Hemophilia Foundation: Social Work Excellence Fellowship	The Social Work Excellence Fellowship funds a social worker interested in bleeding disorders care while conducting research or a clinical project of relevance and benefit to the bleeding disorders community. A focus on diversity is welcomed.	1	\$ 10,000	23-Feb each year	27-April each year	Web Link	
National Institutes of Health (NIH): Accessible and Affordable Hearing Health Care (R21/R33) new March '10	This FOA seeks milestone-driven research applications exploring new or innovative adaptations of approaches designed to increase access and affordability of hearing health care, focused on delivering better healthcare access and outcomes and should seek solutions that are effective, affordable and deliverable to those who need them.	2	\$ 300,000	8-May-10 and 8-Sep-10	8-Jun-10 and 8-Oct-10	Web Link	

National Institutes of Health (NIH): Collaborative Research on the Transition From Acute to Chronic Pain: New Models and Measures in Clinical and Preclinical Pain Research (R01) new March '10	The overall goal of this FOA is to expand opportunities in pain research that examine the transition from acute to chronic pain. This initiative seeks applications in basic, behavioral, and clinical research that will study the transition from acute to chronic pain states in temporomandibular disorders and other orofacial, craniofacial, and relevant, comorbid painful disorders.	5	\$1million	21-May-10	22-Jun-10	Web Link	
National Institutes of Health (NIH): Improving Diet and Physical Activity Assessment (R21)	This Funding Opportunity Announcement (FOA) encourages innovative research to enhance the quality of measurements of dietary intake and physical activity. Accurate longitudinal data on physical activity and dietary intake patterns would be especially helpful in understanding how these factors may impact on health and functional status over the human lifespan.	2	\$ 275,000	May 16, 2010; January 16, 2011; September 16, 2011; May 16, 2012.	June 16, 2010; February 16, 2011; October 16, 2011; June 16, 2012	Web Link	
National Institutes of Health (NIH): Mechanisms and Prevention of Sexual Transmission of HIV/SIV (R01) new March '10	The emphasis of this FOA is discovery research focused on acquiring novel insights that may lead to the development of new conventional or outside-the-box approaches to vaccines and non-vaccine biomedical prevention strategies for optimizing mucosal protection against HIV/SIV.	5	\$1million	18-Jun-10	19-Jul-10	Web Link	
National Institutes of Health (NIH): Mechanisms, Models, Measurement, & Management in Pain Research (R03)	The purpose of this Funding Opportunity Announcement is to inform the scientific community of the pain research interests of the various Institutes and Centers (ICs) at the National Institutes of Health (NIH) and to stimulate and foster a wide range of basic, clinical, and translational studies on pain as they relate to the missions of these ICs. The NIH Pain Consortium supports research on all conditions in which pain is a prominent feature.	2	\$ 100,000	Not required	16-Jul-10 16-Nov-10	Web Link	
National Institutes of Health (NIH): Research on Emergency Medical Services for Children (R01)	This multi-agency program Funding Opportunity Announcement (FOA) is designed to improve the quality and quantity of research related to emergency medical services for children (EMSC), with the goal of reducing morbidity and mortality in children through improved care delivery.	5	\$ 2,500,000	15-Aug-10	15-Sep-10	Web Link	
National Institutes of Health (NIH): Research on Alcohol and HIV/AIDS (R01)	The complex and global nature of unresolved questions surrounding alcohol and HIV/AIDS relationships indicates the need for a multidisciplinary approach to research. Investigators representing a broad array of academic disciplines and engaged in cross-cutting fields of science are encouraged to consider designing hypotheses-driven studies that utilize rigorous methodologies from epidemiological, clinical, and experimental research.	Varies with grant	Varies with grant	Not required	7-May-10	Web Link	
National Operating Committee for Standards in Athletic Equipment: Athletic Injury Research	Applications should describe projects based upon basic or applied research bearing a rational relationship toward increasing understanding of sports injury mechanisms and injury prevention through the use of protective sports equipment. The primary focus of NOCSAE research has been and will continue to be head and neck injury. All academic institutions and any organization in North America are eligible.	Not specified	Not specified	1-May-10	1-Oct-10	Web Link	

Natural Sciences and Engineering Research Council Research Network Grants (RNG)	Research Network Grants fund large-scale, complex research programs that involve multi-sectorial collaborations on a common research topic. The topic to be investigated can be of local concern, requiring a focused local network, or of regional or national importance, requiring a larger, more complex network.	5	Not specified	Required	Anytime	Web Link	
NEARBC: Seed Grant Opportunity	These seed funds may be utilized for: research team development which would link academic and/or community based researchers to prepare an application for research funding; or conducting exploratory work to test research questions/methods or collect pilot data to support an application for research funding.	N/A	VARIABLES	Not required	Ongoing	Web Link	
Neilsen Foundation: Program Grant new March '10	The Neilsen Foundation awards Program Grants to support innovative rehabilitation and recreation programs as well as independent living and educational opportunities that improve the quality of life for people living with spinal cord injuries (SCI) throughout the United States and Canada only.	1	\$5000 to \$100,000	9-Apr-10	30-Jun-10	Web Link	
Physicians' Services Incorporated Foundation (PSIF) : Community Based Research	Physicians practising in a community setting may apply for a grant to assist them in undertaking a review of their practice patterns that would enhance the effectiveness of practice and patient care in their own clinic, hospital, or region.	1	\$ 5,600	Not specified	Not specified	Web Link	
PrioNet Canada: Strategic Programs	PrioNet aims to develop strategies to mitigate, and ultimately eradicate, prion diseases. PrioNet Canada enables multidisciplinary research, provides training and network opportunities, facilitates the transfer of research results to commercial uses, and promotes knowledge exchange.	1 to 2	\$100,000 - \$200,000	Ongoing	Ongoing	Web Link	
Radiological Society of North America: Research Seed Grant new March '10	To enable all levels of investigators throughout the world in defining objectives and testing hypotheses in preparation of major grant applications to corporations, foundations, and governmental agencies. The seed data from these projects will indicate feasibility and appropriateness of the research prior to applying for funds from other agencies.	1	\$ 40,000	Not specified	15-Jan-11	Web Link	
Royal College of Physicians and Surgeons of Canada: Professional Development Grants	For periods of personalized professional development (to learn a skill, surgical procedure or expand an area of competence); restricted to Fellows of the RCPSC in good standing;	Not specified	\$ 3,000	Not required	8 weeks prior to start of project	Web Link	
Savoy Foundation Epilepsy: Research Grants	Research grants will be available to clinicians and/or established scientists working on epilepsy or related subjects.	1	\$ 25,000	Not specified	15-Jan of each year	Web Link	
Savoy Foundation Epilepsy: Post-doctoral and clinical research fellowships	A few grants will be awarded to scientists or medical specialists (Ph.D. or M.D.) wishing to carry out a full time research project in the field of epilepsy.	1	\$ 30,000	Not specified	15-Jan of each year	Web Link	
Savoy Foundation Epilepsy: Studentships	Studentships will be awarded to meritorious applicants wishing to acquire training and pursue research in a biomedical discipline, the health sciences or social sciences related to epilepsy. To be eligible, the candidate must have a good university record (B. Sc., M.D. or equivalent diploma) and have ensured that a qualified researcher affiliated to a university and/or hospital, will supervise his/her work.	4	\$15,000 per year	Not specified	15-Jan of each year	Web Link	

Scottish Rite Charitable Foundation of Canada (SRCFC): Major Research Grants - Supporting Biomedical Research Into Intellectual Impairment	The Scottish Rite Charitable Foundation of Canada (SRCFC) offers grants to support biomedical research into intellectual impairment focused on the following: a) The causes and eventual cure of intellectual impairment, such as Autism and Down syndrome, especially as it affects children b) The causes and eventual cure of Alzheimer's disease Research into other forms of intellectual impairment may also be considered.	3	\$ 105,000	Not specified	April 30 of each year	Web Link	
Scleroderma Foundation	The Scleroderma Foundation is seeking applications from promising established investigators both inside and outside the field of SSc research who wish to propose pilot studies to obtain preliminary data dealing with a highly innovative and/or highly relevant theme related to SSc. This grant will support pilot research that is likely to lead to more substantial unlimited research project grants from federal or non-federal sources.	2	\$ 150,000	Not specified	15-Sept on annual basis	Web Link	
Sick Kids Foundation: Research Grants in Complementary and Alternative Health Care and Paediatrics	As part of the Foundation's funding of the Children and Youth Home Care Network (CYHN), support is offered for conferences, workshops or symposia. The purpose of funding conference grants is to support events which are relevant to home and community care for children, youth and families.	2	\$130,000	Not specified	15-May on annual basis	Web Link	
Sick Kids Foundation: Research Cross-Training Awards in Complementary and Alternative Health Care and Paediatrics	A request for cross-training proposals which must have as a goal to increase research capacity in paediatric complementary and alternative therapies in Canada.	Not specified	Not specified	Not specified	11-Sept on annual basis	Web Link	
Sick Kids Foundation: Community Conference Grants: Knowledge Sharing with Families	The purpose of the Community Conference Grants Program is to support events which are organized by and/or for families with children with health challenges, including but not limited to children with acute illness, chronic illness, and disabilities. Eligible events will have a focus on information sharing with families and health professionals and/or community organizations.	1	\$ 5,000	Not required	May 31, Sept. 30, & Jan. 31 on annual basis	Web Link	
Sigma Theta Tau International/ Association of Perioperative Registered Nurses Grant	To encourage qualified nurses to conduct research related to perioperative nursing practice and contribute to the development of perioperative nursing science and perioperative nursing care that contributes to quality, cost-effective patient outcomes related to safety, physiological integrity and behavioral responses;	1	\$ 5,000	Not required	1-Apr-10	Web Link	
Sigma Theta Tau International/ Hospice and Palliative Nurses Foundation End of Life Nursing Care Research Grant	The purpose of the Sigma Theta Tau International/Hospice and Palliative Nurses Foundation End of Life Nursing Care research grant is to encourage qualified nurses to contribute to the advancement of nursing care through research. Proposals for pilot and/or developmental research may be submitted for the grant	1	\$ 10,000	Not required	1-Apr-10	Web Link	

Sigma Theta Tau International/ Association of Nurses in AIDS Care Grant	The purpose of the grant is to encourage research career development of nurses through support of clinically oriented HIV/AIDS research and increase the number of HIV studies being done by nurses. This includes studies focused on HIV prevention, symptom management, promotion of self-care and adherence. Proposals for pilot and/or developmental research may be submitted for the grant	1	\$ 2,500	Not required	1-Apr-10	Web Link	
Sigma Theta Tau International/ Midwest Nursing Research Society Research Grant	The purpose of the Sigma Theta Tau International/Midwest Nursing Research Society research grant is to encourage qualified nurses to contribute to the advancement of nursing through research; proposals for pilot and/or developmental research may be submitted. All research topics and designs are eligible for support. Multidisciplinary, historical, and international research is encouraged.	1	\$ 2,500	Not required	1-Apr-10	Web Link	
Sigma Theta Tau International/ American Nurses' Foundation Grant	To encourage the research career development of nurses through support of research conducted by beginning nurse researchers or experienced nurse researchers who are entering a new field of study.	1	\$ 7,500	Not required	1-May-10	Web Link	
Social Sciences and Humanities Research Council of Canada: Aid to Small Universities (ASU) new March '10	The objective of this program is to enable small universities to develop and strengthen focused research capacity in the social sciences and humanities.	3	\$ 90,000	Not specified	1-Dec-10	Web Link	
Social Sciences and Humanities Research Council of Canada (SSHRC) Research Communication Grants: Aid to Research Workshops and Conferences in Canada	The broad purpose of this program is to support workshops and conferences held in Canada. Grants are available to help defray the costs of organizing workshops and conferences.	Workshop Conference	Max. \$25,000 Max. \$50,000	Not required	May 1 & Nov. 1 on annual basis	Web Link	
Social Sciences and Humanities Research Council of Canada (SSHRC): Research Development Initiatives	The program provides short-term support that enables grant holders to develop their research to a point where they are able to submit fully developed proposals to other programs with the aim of producing and effectively disseminating advanced research findings.	2	\$ 40,000	Not specified	7-Apr-10	Web Link	
Social Sciences and Humanities Research Council: Canadian Initiative on Social Statistics (CISS) Data Training Schools new March '10	The Canadian Initiative on Social Statistics (CISS) is a co-operative project of SSHRC and Statistics Canada. Its aim is to promote research and training in the application of social statistics. The Data Training Schools (DTS) serves postsecondary institution researchers, graduate and undergraduate students, policy analysts and data librarians. DTS courses cover topics in quantitative methods and the use of Canadian micro-data.	3	\$ 150,000	Not specified	7-Dec-10	Web Link	
Spina Bifida and Hydrocephalus Association of Canada (SBHAC): Spina Bifida and Hydrocephalus Research Grants	The Association has an established Research program that awards funds annually to allied health care professionals, psycho-social or educational professionals and medical researchers to improve the quality of life of all individuals with spina bifida selected or hydrocephalus and their families through awareness, education, Research and advocacy, and to reduce the incidence of neural tube defects.	1	\$ 9,000	Not specified	Feb.14th of every year	Web Link	

The Stanley Medical Research Institute: Treatment Trials	The purpose of this program is to support the testing of medications to assess their efficacy for treating schizophrenia and bipolar disorder. SMRI is especially interested in supporting the testing of medications that are unlikely to be tested by pharmaceutical companies because they are not commercially profitable.	1	\$ 300,000	Not specified	annual basis Oct. 1st	Web Link	
Statistics Canada: Postdoctoral program in Health Research	The Health Information and Research Division (HIRD) at Statistics Canada has a limited number of Postdoctoral positions available for qualified candidates who are interested in pursuing health or health care-related research at Statistics Canada.	1	\$ 66,000	Not required	Feb 1st to March 31st on annual basis	Web Link	
Vancouver Foundation and B.C. Medical Services Foundation	The British Columbia Medical Services Foundation (BCMSF), established under the auspices of Vancouver Foundation, supports health-related research in both academic and community settings in British Columbia and encourages interdisciplinary and collaborative research. BCMSF actively promotes health education, explores solutions to health care issues, and advances study in the health sciences.	5	\$ 50,000	Not specified	March 30 and Oct. 5 of each year	Web Link	
Vancouver Foundation: Grants and Community Initiatives Program new March '10	The purpose of the Health and Social Development Granting program is to review funding requests for projects that are designed to enhance the capacity of adults, families and communities to create healthy, caring, safe and supportive environments for all.	1	Varies with grant	23-Jul-10 16-Sep-10	15-Sep-10 7-Oct-10	Web Link	
Victoria Foundation: Environment Fund	The Environment Fund provides grants made to support environmental programs that benefit residents of the County of Victoria (the Capital Regional District to Mill Bay and the Southern Gulf Islands). Grant funding supports organizations with programming in three priority areas: Air & Water Quality, Ecosystem Awareness and Protection, and Urban Sprawl & Sustainable Communities.	Not specified	Varies from \$1000 to over \$20,000	On-going basis	On-going basis	Web Link	
Victoria Foundation: Expressions of Interest	In our on-going effort of connecting people who care with causes that matter across the broad spectrum of our community, the Victoria Foundation invites and accepts expressions of interest from charitable organizations to support both pro-active and responsive grant making on a continuous intake basis.	1	Small (\$1,000-\$5,000) Medium (\$5,000-\$20,000) and Large Grants (over \$20,000)	Continuous- 3 months prior to processing request	Continuous basis	Web Link	
Woodward's Foundation	The focus of the Mr. and Mrs. P.A. Woodward's Foundation is in the health field. The foundation supports projects that primarily affect the people of British Columbia where there is clear indication of the health benefit anticipated. Grants are made to organizations with a charitable gift registration number from the Department of National Revenue of Canada.	1	Unspecified	Not required	15-Jan and 15-July on annual basis	Web Link
