

Informed Expertise: using research as an expert witness

Dr Hall will discuss how her research practice has assisted her to evolve into an international expert witness in the area of deaths following police use of force. She will highlight some of the challenges that she has experienced with the legal system and judiciary inquiry process.

The objectives of her presentation will be to:

- Understand how participation in the research process determines your role as an expert witness,
- Explore how existing and evolving research can guide clinical practice and future research,
- Identify how evidence based practice can be brought to non traditional environments.

Research Capacity Building

Michael Smith Foundation for
Health Research

Research Rounds is an initiative of the VIHA Capacity Building Office, whose goal is to build research capacity with VIHA health professionals and decision makers, as well as building collaborative links with community, academic partners, other health authorities, and the Ministry of Health.

For more information please see the Capacity Building webpage:
