## New Royal Jubilee Hospital Patient Care Centre

August 22, 2008

On behalf of ISL Health, the builders and operators of the new Patient Care Centre at Royal Jubilee, I would like to thank all community members and residents adjacent to the Royal Jubilee Hospital for your cooperation and understanding throughout this initial phase of construction for the new Patient Care Centre.

As a reminder, regular work hours are Monday to Saturday. During this period blasting will occur at regular time intervals throughout the day, Monday to Saturday.

We apologize for any inconvenience the construction and blasting may cause, and hope that you recognize that the end goal is to enhance patient care for the community. Information about construction and scheduling will be made available on our website [www.accionalarkjv-rjh.com](http://www.accionalarkjv-rjh.com) by the end of August.

If you have any questions or concerns, please call 250-383-7577

Thank You,  
Deanne McCarthy  
Community Relations
